## Facilities Planning 2014: Welcome to Discover

Thank you for your interest in helping to shape the facilities plan in Central Valley School District. In the Spring of 2014 invited parents, staff and the community to engage in a virtual 3-step conversation about our facilities and we're excited to share these results with you.

Response from the community was affirming, with 1911 participants sharing 4079 Thoughts and assigning more than 49,718 Stars to their top priorities, providing a broad range of input for our Capital Facilities Planning Committee. This engagement is invaluable to ensure our school improvement projects meet the needs and funding realities of our current environment.

We encourage you to dig into the results over the next few pages to discover what your community is thinking and feeling.

The time spent by our community to engage in this process is deeply appreciated.

Ben Small  
Superintendent

### Key Insights

- Improving safety and security is a priority
- Alleviating overcrowding is essential
- Important to maintain current tax rates
- Long term solutions are needed.
